MORE TIME FOR WHAT MATTERS MOST: YOUR PATIENTS

The new AMALGAM HoG from RAMVAC® is powered by Apavia®, a fresh perspective in filtration technology.

- **Meets all proposed EPA regulations**
- NSF certified ISO 11143:2008
- Industry's highest retention rate of 99.7%
- Performs Amalgam Separation and other contaminant removal, protects and extends the life of your vacuum pump
- Drastically reduces the frequency of changing screen mesh traps

FILTRATION THAT MAKES SENSE

From RAMVAC® Utility Solutions

Features

- High-Efficiency Vacuum
- Advanced cyclonic filtration
- Ambidextrous Installation and Replacement (depending on plumbing)
- Larger tank capacity
- Universal, industry-standard connection
- Replacement canisters are environmentally safe and recyclable
- Made in the USA (US and International patents pending)

Benefits

- The large replacement canister is universally molded to fit currently installed units
- Bottom canister exchange
- Industry compatible unit to meet new standards
- Large canisters reduce the frequency of necessary change outs, reducing expenses.
- When regulations hit your State, you already comply
- Extended pump life and efficiency
- Ease of Maintenance efforts, no trap
- Visual fill level inspection
- Complies with Best Management Practices (BMPs)
- Protecting you, your staff and customer
- No tools necessary

Part Numbers:

590600	HoG Amalgam Separator	\$825
590601	HoG Replacement Canister	\$299
575600	Bracket to mount HoG to Otter Tank	\$223

Applications

- Designed for servicing up to 10 chairs
- Filtration of: amalgam, mercury, alloy and other waste particles
