We built the Bulldog® QT for those of you who demand more power and a compact package. Bulldog QTs work just as hard as the original RAMVAC, proven by over 40 years of efficient, water-free performance.

All the power you'll ever need.

Choose the Bulldog QT Combo that's right for you.

These recommendations are conservative. Oversizing is wasteful. To allow for future needs, select an upgradable model rather than oversize. More specific sizing may be required by: additional vacuum devices such as nitrous oxide scavengers, vacuum sinks and cuspidors; substandard piping; overhead piping, uncommon user standards and/or uncommon vacuum uses. Check the DentalEZ® website or contact us for our complete line-up of vacuum units, tanks and options.

Bulldog QT Combos Bulldog QT Combos include a Bulldog QT Vacuum Unit and a 15 Gallon Otter Tank.

PRODUCT	PRODUCT NUMBER	APPLICATIONS (typical)	UPGRADEABLE	POWER UNIT	TANK SIZE
Bulldog QT Combo 1	C809001	One doctor and staff working in 6 rooms or less	Yes	Bulldog QT 1	15 gallon (60 L)
Bulldog QT Combo 2	C809002	Two doctors and staff working in 6 rooms or less	Yes	Bulldog QT 2	15 gallon (60 L)

RAMVAC is built to serve NFPA Level 3 vacuum applications. RAMVAC must not be used for lab dust collection or housekeeping applications. Other applications may be served by custom systems. Check the DentalEZ website or contact us for our complete line-up of vacuum units, tanks and options.
